ECOFLOR 2% PREMIX

Presentation

Ecoflor 2% premix contains florfenicol 20mg/g for incorporation into animal feed.

Indications

Pigs: For the treatment and control of a wide range of bacterial respiratory and enteric infections sensitive to florfenicol, including: *Actinobacillus pleuropneumoniae*, *Pasteurella multocida*, *Streptococcus suis*, *Bordetella bronchiseptica*, *Haemophilus parasuis*, *Mycoplasma hyopneumoniae*.

Dosage and administration

Pigs

Ecoflor 2% Premix should be incorporated at a rate of 2kg/tonne feed to provide 40ppm florfenicol. This is equivalent to 1-2mg/kg bodyweight.

It should be fed continuously for 7 to 12 days or follow the recommendations of a qualified veterinarian.

It is recommended that the required weight of Ecoflor 2% Premix be blended with a suitable quantity of feed ingredient before blending with the bulk of the mix.

Contra-indications and warnings etc.

Withdrawal period

Pigs

Animals should not be slaughtered for human consumption until 24 hours after the last treatment.

Precautions

The product will remain stable in finished feed for 40 days.

Keep out of the reach of children.

Sold under prescription.

Storage

Avoid high temperatures and humidity during storage.

Shelf-life of 2 years when stored in the original packaging, in a dry, cool, place between 5 and 25°C.

Do not expose to direct sunlight.

This product has been formulated in U.K.

This datasheet offers general information. Please contact your local ECO representative for country-specific details.

Operator warnings

Adequate measures must be taken not to create dust when incorporation of the product into feed is occurring. Persons handling the product should do so in a mechanically ventilated area. Care should be taken to avoid contact with skin or eyes. Use a dust mask and wear protective gloves and approved safety glasses. Wash exposed skin after handling product. Do not smoke, eat or drink during use.

General precautions

For animal use only. Keep out of sight and reach of children.

Package quantities

Ecoflor 2% Premix is packaged in woven polypropylene, polyethylene-lined sacks in quantities of 20kg.

Container disposal

Dispose of waste and empty packaging safely and in accordance with local waste disposal regulations.
